EXAM READINESS INTENSIVE Workshop AWS Certified Solution Architect Associate

```
Course#:awseriw-arc
Duration:5 Days
Price:0.00
```

Course Description

Day 1 to 3:Architecting on AWS

Objectives: Develop foundational knowledge about AWS and learn how to build resilient architectures. From topics coverage, will be the same as current 3 days Architecting on AWS course.

Day 4:Exam Readiness: AWS Certified Solutions Architect Associate

Objectives: Learn about the exam and how to answer the questions From topics coverage, will be the same as current 0.5 day Certification Readiness Workshop but there will be additional AWS services to be discussed and Qualtrics quiz 1.

Day 5:Official AWS practice test

Objectives: Test your knowledge to see if you are ready to take the exam See some real questions from the certification team and there will be Qualtrics quiz 2. Course wrap-up.

Objectives

 Make architectural decisions based on AWS architectural principles and best practices.
 Leverage AWS services to make your infrastructure scalable, reliable, and highly available.
 Leverage AWS Managed Services to enable greater flexibility and resiliency in an infrastructure.
 Make an AWS-based infrastructure more efficient to increase performance and reduce costs.

Use the Well-Architected Framework to improve architectures with AWS solutions.

Navigate the logistics of the examination process, exam structure, and question types.

Identify how questions relate to AWS architectural concepts.

Interpret the concepts being tested by an exam question.

Audience

This course is intended for:

Individuals responsible for articulating the technical benefits of AWS services to customers

Individuals interested in learning how to get started with using AWS

SysOps administrators, Solution Architects and developers interested in using AWS services

Solution design engineers

Anyone who needs to understand the scope of cloud architectures

Prerequisites

There are no Prerequisites for this course.
