

Program Management Professional (PgMP)™,® Certification Training

Course#: PM-08
Duration: 3 Days
Price: 200.00

Course Description

The Program Management Professional (PgMP) credential from Project Management Institute (PMI) is the next step after Project Management Professional (PMP) Certification, and addresses the community of professionals who are responsible for the coordinated management of multiple projects that are in alignment with organizational objectives. They are required to direct and manage complex activities that may span functions, organizations, cultures and geographies.

Our comprehensive workshop covers the Project Management process from beginning to end, honing your skills in the six prime focus areas: Governance, Prioritization, Escalation, Resource Management, Benefits Realization, and Stakeholder Management. As a PgMP credential holder, you will be able to promote better integration and coordination of multiple projects for the overall benefit of the program.

Objectives

What you will learn

- Get in-depth knowledge of tools and techniques to handle complex multiple related projects
- Understand Program Lifecycle and its 54 processes, competencies, tools and techniques with practical sample templates
- Learn to implement large-scale programs to align with business strategy
- Get a thorough understanding of project management concepts such as resource and budget allocations, schedules and risks
- Learn through practical examples, the issues faced in large scale project implementations
- Learn how to communicate, motivate, and hone your leadership skills
- Get overall project management knowledge that will help fulfil organizational vision

You will also get:

21 PDUs

Comprehensive downloadable courseware

In-depth case studies for better retention

Quiz to test your knowledge.

Audience

Team Leads, Sponsors, Project Directors, Program Managers, Portfolio Managers, or Project Management Office (PMO) Heads wishing to know more about the processes/benefits of the Program Management approach in supporting organizational strategy can attend this course.

Prerequisites

Prerequisites:

There are no prerequisites if one wishes to attend the workshop but in order to appear for the Program Management Professional (PgMP) certification, candidates must have a Four-year Degree (Bachelors or Global equivalent), with at least four years of Project Management experience and four years of Program Management experience or a Secondary Diploma (High school or Global equivalent), with at least four years of Project Management experience and seven years of Program Management experience.

To apply for the Program Management Professional (PgMP), candidates need to have either:

A Four-year Degree (Bachelors or Global equivalent), with at least four years of Project Management experience and four years of Program Management experience.

OR

A Secondary Diploma (High school or Global equivalent), with at least four years of Project Management experience and seven years of Program Management experience.

Note: If the above requirements are not met, candidates can also consider the Project Management Professional (PMP) credential.
