

IBM Sterling Order Management System Functional Bootcamp

Course#: 6F129G

Duration: 12 Hours

Price: 1900.00

Course Description

This is a 12 hour course, which starts from introducing IBM Sterling OMS, Application Platform, API Framework, and then goes deep into the various functionalities.

If you are a business user of IBM Sterling OMS, then this course helps you understand OMS, its ecosystem, and overall features and functionalities. If you are a technical user of IBM Sterling OMS, then it is recommended to take the IBM Sterling Order Management Technical Bootcamp (6F130G) also, along with this course. The Technical Bootcamp course provides you with in-depth hands-on exercises.

You must complete all of the required activities before you can take the quizzes. The course certificate and badge are awarded after passing all the quizzes.

Objectives

After completing the Functional modules in the course, you should be able to describe the following functionalities in IBM Sterling OMS:

- Overall IBM Sterling Order Management System
- Installation process of IBM Sterling OMS
- Participant and Process Modeling functionality
- Global Inventory Visibility

Distributed Order Management (Order Fulfillment)
Order Promising (Sourcing and Scheduling)
Payment Processing
Reverse Logistics

Audience
